

Daily Workers

Monthly Workers

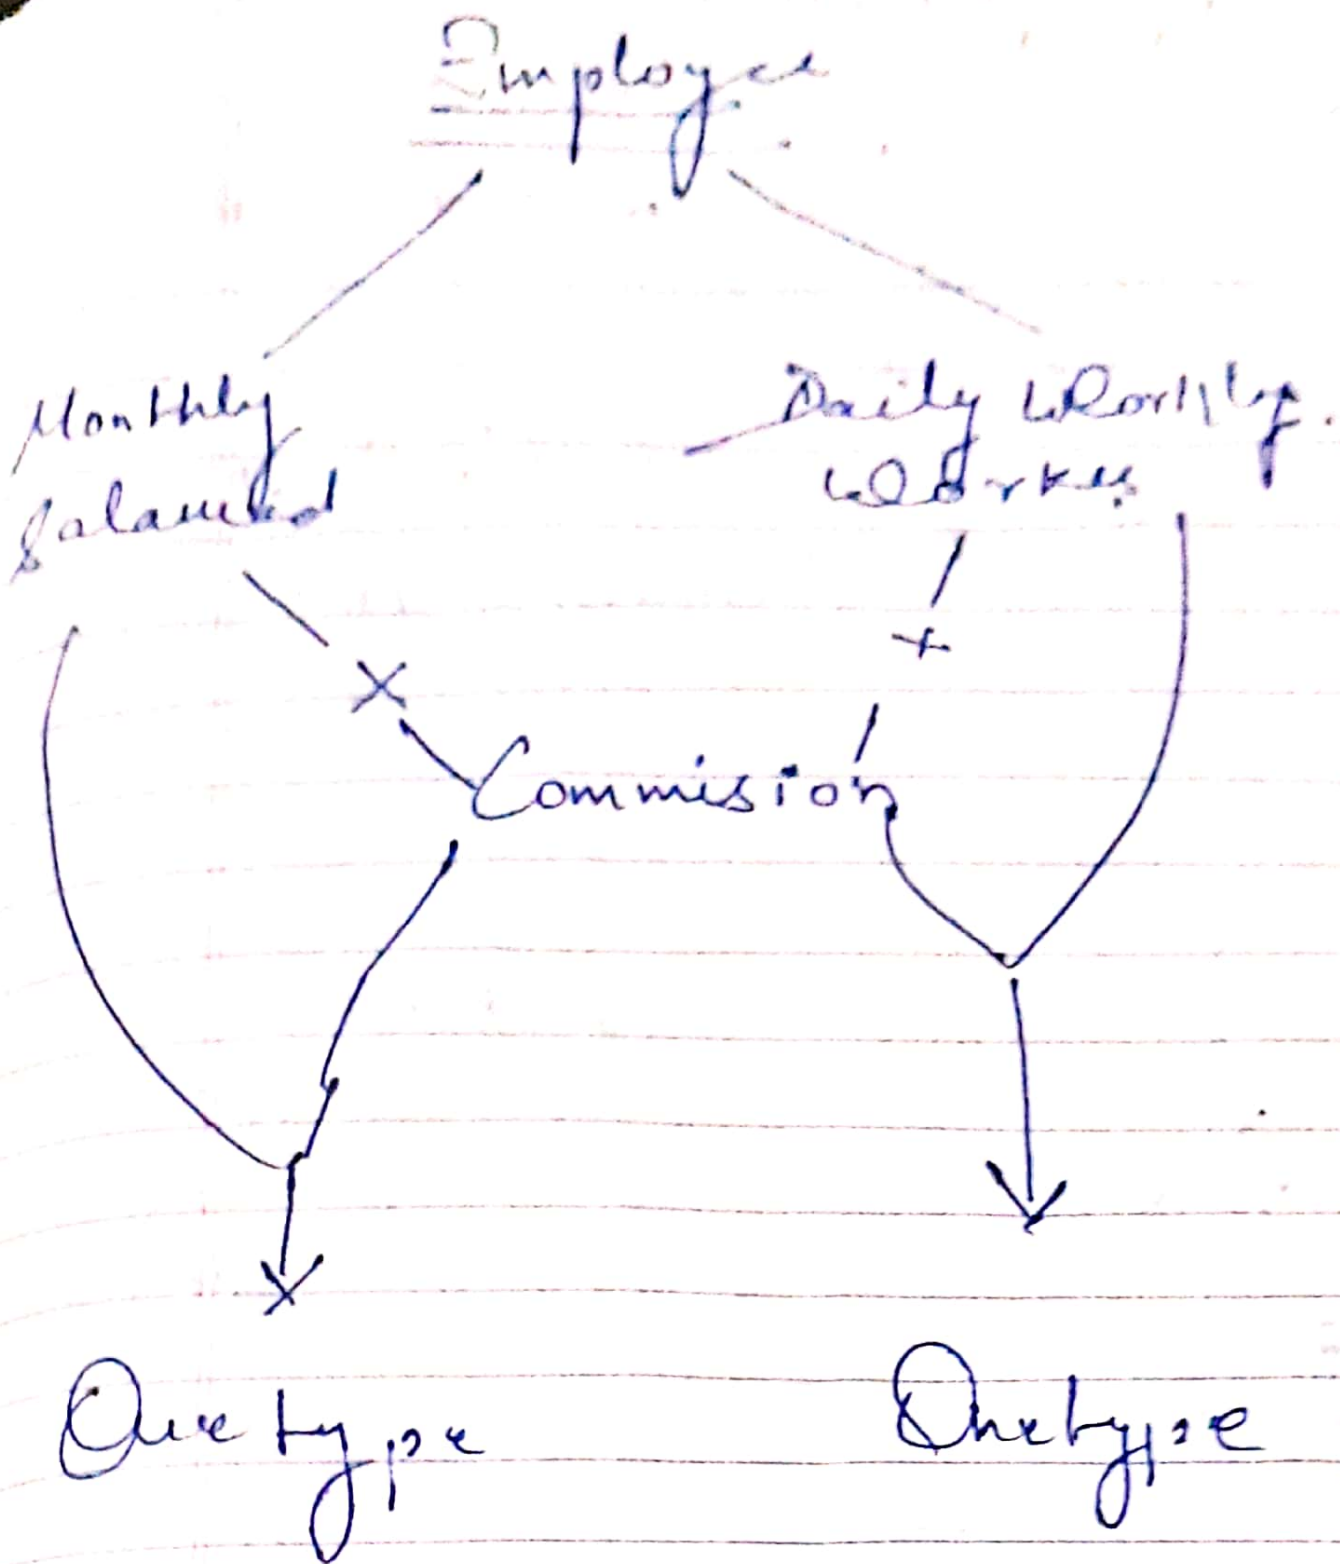

Commission

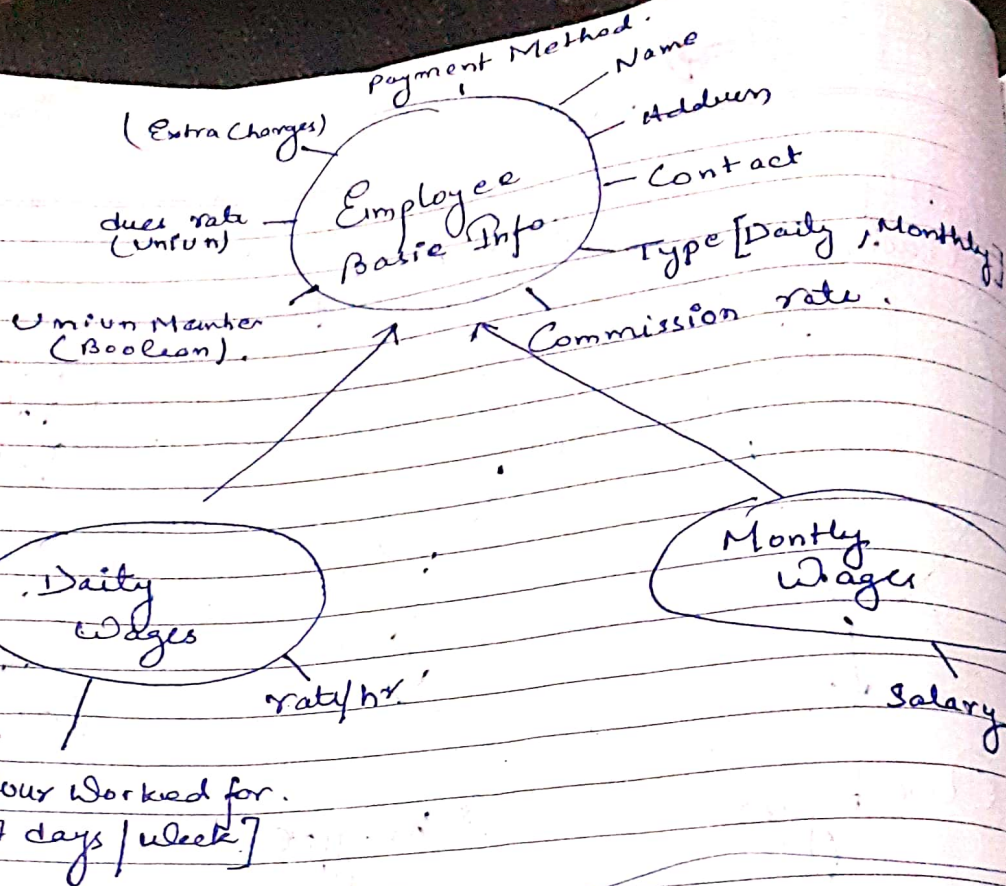

Approach 1

→ Either extend a basic Info Employee class
for 2 - different
i.e. Monthly Salaries or
Daily Workers.

Approach 2

→ Build a Salary class which

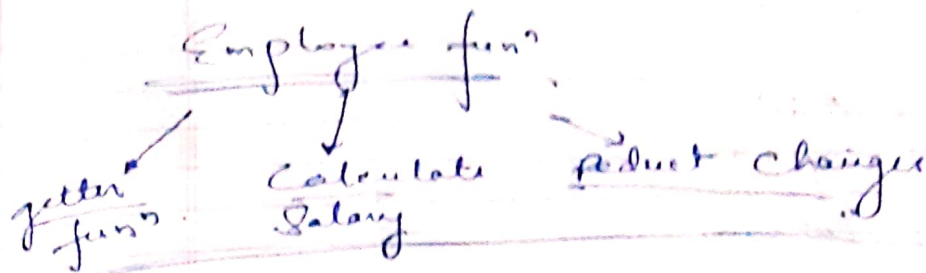

format of Json Data

```

{
  Name : " "
  Contact : " "
  Address : " "
  Type : " "
  Commission : " "
  Rate
  UnionMembe :
  dues rate :
  Extra Charge :
  Payment Method :
  Salary : 1
}
  
```

2 "Monthly" : 1

{ Name

Basic Entity :

rate :
Ord : ~~1~~ Monday :

Commission : {

}

==

{,

}

{

] } ,

~~1~~ }

- 1.) Add
- 2.) Update
- 3.) Delete

Name —→

Basic
